SKILLS

Technical Skills

- Python
- Machine Learning
- Deep Learning
- Natural Language Processing (NLP)
- Information Retrieval
- BM25
- AWS Cloud
- Software Engineering Fundamentals
- DevOps Basics
- SDLC (Software Development Life Cycle)
- Agile Methodologies
- Version Control Concepts
- Business Analytics
- Data-Driven Decision Making
- Data Structures & Algorithms
- Database Management Systems (DBMS)
- Operating Systems
- Computer Networks
- Git/GitHub

Business and Management Skills

- Strategic Management
- Game Theory & Competitive Strategy
- Corporate Governance
- Corporate Responsibility (CSR)
- Ethical Decision Making
- Business Analysis

Professional Skills

- Problem Solving
- Critical Thinking
- Analytical Thinking
- Decision Making
- Team Collaboration
- Communication Skills

LANGUAGES

Motivated Computer Science and Engineering student skilled in Python, AI/ML, NLP, and software development. Developed AI-powered projects focused on document verification and information retrieval. Certified in Software Engineering, DevOps, Business Analytics, and Corporate Strategy through IBM, IIM Ahmedabad, and leading global institutions. Active IEEE member with strong analytical thinking, problem-solving, and collaborative abilities, seeking opportunities in software engineering and AI-driven development.

EXPERIENCE

November 2025 - Current

Member – IEEE Computer Society *IEEE Computer Society, KIIT SBC*

- Participated in technical activities and computing-related discussions.
- Engaged with emerging technologies and software development concepts.

December 2025 - April 2026

AI/ML Project Developer *Self Project / Academic Project, Bhubaneswar, India*

- Developed “FEVER Verdict”, an AI-powered fact verification system using NLP techniques.
- Implemented BM25-based evidence retrieval for efficient document ranking and claim verification.
- Designed HCAP architecture to improve fact-checking workflow and information processing.
- Applied machine learning and text preprocessing techniques for handling textual claims.
- Strengthened skills in Python, Natural Language Processing, and information retrieval systems.

September 2024 - December 2025

Volunteer *KIIT Student Activity Centre (KSAC)*

- Assisted in organizing university programs and student activities.
- Coordinated with teams during technical and cultural events.
- Improved communication, teamwork, and event management skills.

December 2024 - April 2025

Cloud Computing Trainee *AWS Academy / Self Learning, Bhubaneswar, India*

- Completed hands-on AWS cloud computing labs and training modules.
- Worked with AWS IAM, EC2, VPC, EBS, Load Balancing, and Database Server setup.
- Gained practical understanding of cloud infrastructure and deployment concepts.

EDUCATION

January 2023 - Current

Bachelor of Technology (B.Tech) Computer Science and Engineering

English:	C1
Advanced	
Hindi:	C1
Advanced	
Nepali:	C1
Advanced	
Latin:	A1
Beginner	
Bengali:	A2
Elementary	
Odia:	A1
Beginner	

CERTIFICATIONS

- AWS Cloud Computing Labs & Training
— AWS Academy (100%)
- AWS IAM
 - Amazon EC2
 - VPC & Web Server Deployment
 - Elastic Beanstalk
 - AWS Lambda
 - EBS & Database Server Management
 - Load Balancing & Auto Scaling
 - Introduction to Software Engineering — IBM via Coursera (97%)
 - Introduction to DevOps — IBM via Coursera (100%)
 - Business Analytics for Decision Making — University of Colorado Boulder via Coursera (100%)
 - Corporate Governance — via Coursera (100%)
 - Strategy and Game Theory for Management — Indian Institute of Management Ahmedabad via Coursera (100%)
 - Ethical Decision Making for Success in the Tech Industry — University of Colorado Boulder via Coursera (100%)
 - Business for Good: Fundamentals of Corporate Responsibility — London Business School via Coursera (100%)

ACCOMPLISHMENTS AND AWARDS

- Achieved 100% scores in multiple professional certification courses on Coursera
- Completed AWS Academy hands-on cloud computing labs with 100% performance

Kalinga Institute Of Industrial Technology(KIIT), Bhubaneswar

GPA: 8.33

- Pursuing Bachelor of Technology (B.Tech) in Computer Science and Engineering with a CGPA of 8.33/10.
- Relevant coursework: Data Structures, Algorithms, Database Management Systems, Operating Systems, Computer Networks, Machine Learning, Cloud Computing, Artificial Intelligence, Software Engineering and Natural Language Processing.
- Developed “FEVER Verdict,” an AI-powered fact verification system using NLP and BM25-based evidence retrieval techniques.
- Research work underway on regularization techniques for robust neural learning and reducing overfitting in deep learning models.

HOBBIES AND INTERESTS

- Playing Guitar and Singing
- Reading, Research, and Continuous Learning
- Exploring New Places and Cultural Experiences
- Following Geopolitics and International Affairs

PROJECTS

FEVER Verdict — AI-Powered Fact Verification System

Technologies: Python, NLP, BM25, Information Retrieval, Machine Learning

- Developed an AI-powered fact verification system using Natural Language Processing techniques
- Implemented BM25-based evidence retrieval for efficient document ranking
- Designed HCAP architecture to improve fact-checking workflow and information processing
- Applied text preprocessing and retrieval techniques for handling textual claims

- Active member of IEEE Computer Society
- Developed AI-powered fact verification and information retrieval project using NLP techniques
- Successfully completed certifications from IBM, University of Colorado Boulder, and Indian Institute of Management Ahmedabad
- Demonstrated strong academic performance in software engineering, analytics, strategy, and cloud computing domains
